Country Club of York Recognized for Environmental Excellence

York, PA- Country Club of York has retained its designation as a "Certified Audubon Cooperative Sanctuary" through the Audubon Cooperative Sanctuary Program for Golf Courses, an Audubon International program. Chuck Zaranec, Green and Grounds Superintendent, led the effort to maintain sanctuary status on this course. Country Club of York was designated as a Certified Audubon Cooperative Sanctuary in 2011 and is one of over 900 courses in the world to hold certification from Audubon International.

The Audubon Cooperative Sanctuary Program for Golf Courses, endorsed by the United States Golf Association, provides information and guidance to help golf courses preserve and enhance wildlife habitat, and protect natural resources. Golf courses from the United States, Africa, Australia, Canada, Central America, Europe, Mexico, and Southeast Asia have achieved certification in the program.

"Country Club of York has shown a strong commitment to its environmental program. They are to be commended for preserving the natural heritage of the area by protecting the local watershed and providing a sanctuary for wildlife on the golf course property," said Christine Kane, CEO at Audubon International.

"To reach certification, a course must demonstrate that they are maintaining a high degree of environmental quality in a number of areas," explained Kane. These categories include: Environmental Planning, Wildlife & Habitat Management, Outreach and Education, Chemical Use Reduction and Safety, Water Conservation, and Water Quality Management. Courses go through a recertification process every three years.

About Audubon International

Audubon International is a not-for-profit 501(c)(3) environmental education organization dedicated to providing people with the education and assistance they need to practice responsible management of land, water, wildlife, and other natural resources. To meet this mission, the organization provides training, services, and a set of award-winning environmental education and certification programs for individuals, organizations, properties, new developments, and entire communities.
